

International Workshop

Scenarios for legume protein in European agricultural systems

Day 1 - 2nd June 2020

- 08:30 Welcome coffee
- 09:00 **Introduction to the workshop**
Prof. Sonoko Bellingrath-Kimura, Leibniz Centre for Agricultural Landscape Research (ZALF) & Humboldt University of Berlin (HUB)
Dr. Moritz Reckling, ZALF
- Session 1 – Pieces of the “protein puzzle” from an agricultural perspective**
- 09:15 **The role of legumes for a sustainable future - from soils to diets**
Prof. Christine Watson, Scotland’s Rural College (SRUC)
- 10:00 **Current and potential future legume production and use**
Prof. Frederick L. Stoddard, University of Helsinki (HU)
- 10:30 **Coffee break**
- 10:45 **Group exercise: Exploring the current dependency on protein imports using FAO data**
Prof. Frederick L. Stoddard, HU
- 11:15 **Legumes in food systems and healthy diets**
Prof. Tilman Grune, German Institute of Human Nutrition Potsdam-Rehbruecke (DIfE)
- 12:00 **Lunch**
- Session 2 – The global perspective and future scenarios for our food systems**
- 13:00 **The role of scenarios to overcome global food challenges**
Prof. Dr. Hermann Lotze-Campen OR Benjamin Bodirsky, Potsdam Institute for Climate Impact Research (PIK)
- 14:00 **Theory of scenario development (preparation for group exercise)**
Dr. Nynke Schulp, Vrije Universiteit Amsterdam (VU)
- 19:00 **Legume dinner**
Inka Notz, ZALF

Day 2 - 3rd June 2020

- 09:00 **Session 3 – Scenario development (group exercise)**
- Introduction to the exercise**
Dr. Ioanna Mouratiadou, ZALF & HUB
- Exercise on scenarios for legume protein in European agricultural systems (in small groups)**
- 12:00 **Lunch**
- 13:00 **Presentation and discussion of developed scenarios (by participants) and wrap-up**
- 14:30 **Coffee break**
- 15:00 **Introduction of the output and further steps**
Dr. Qirui Li, ZALF
- 15:30 **End of Workshop**
